this collection of essays examines english language learning in formal education contexts from pre school to lower secondary level focused on an in service teacher education project that aimed to enhance the teaching of english in a group of schools it takes into account the perspectives of multiple stakeholders heads of school teachers parents and children its novelty lies in the variety of themes it covers such as the account of a vertical implementation of a content and language integrated learning clil project at three school levels teachers attitudes to using picturebooks in l2 settings cultural differences in the presentation of content in textbooks and the role of the native language assistant english for young learners makes a valid contribution to research on a matter of crucial importance in italian education in the 21st century the improvement of the teaching and learning of english it will be of interest to student teachers educators practitioners and researchers

the contributions to this volume explore several focal issues related to the global spread of english and their implications for english language teaching providing both theoretical and empirical perspectives on recent research and implications in educational terms the volume is divided into three thematic sections namely developments in elf research and pedagogic implications raising teachers awareness of elf and elf and elt practices the book provides up to date perspectives on the issues implications and repercussions that findings in elf research can have for elt practices the contributors are all scholars

for years the alternation between the l1 and the l2 was banned in language classes since it was thought that this would impair the learning of the second language in recent years however there has been a recognition of the validity of alternation that is why this book aims at investigating the alternation of the l1 and l2 in content and language integrated learning clil and english medium instruction emi contexts at three educational levels primary secondary tertiary in italy to do so an overarching qualitative research approach was applied with both quantitative and qualitative elements the results of the study point at three main pedagogical implications which highlight the originality of this research the first implication is connected to the function of alternation between the l1 and the l2 alternation played a mainly lexical role to explain specific lexis or at least to provide the students with lexis in both languages english and italian the second implication highlights the fact that despite the contextual differences that exist the three educational levels primary secondary and tertiary show a very similar use of alternation thereby pointing at similarities more than differences the third implication worth noting is the drive toward and preservation of multilingualism that comes from the use of alternation
